## TULSA RENEWABLE BUSINESS ALLIANCE

Our members are not merely conducting business in **Tulsa**. They embody the diverse and vibrant culture that makes the city exceptional, and they engage in local initiatives to enhance the fabric of the community.

We're building a robust alliance that serves as the **Renewable** energy sector's cornerstone. Our diverse membership includes battery tech, hydrogen, solar, wind, geothermal, and utility companies, as well as the network of education, legal, HR, and other service organizations that support them.

We amplify our members' voices in news, policy, and innovation, and serve as a reliable source of **Business** information for local governance and educational institutions. Our members are industry thought leaders.

The strength of our **Alliance** is fueled by programs of interest to our member companies, such as energy advocacy and workforce development. We convene to share ideas, collaborate, and create public awareness of the economic impact the renewable energy sector brings to Tulsa.

# Our Values

## **Collaboration**

At the Tulsa Renewable Business Alliance, our first goal is to come together with renewable energy companies and the services that support this growing economy in the Tulsa area to enable collaboration, provide mutual benefit to our members, and protect the integrity of the renewable energy industry.

## **Community**

When we come together as an alliance, we create a venue for enhancing public awareness and understanding of the renewable energy industry, while encouraging workforce development and telling the stories of how our companies and projects positively impact the lives of Tulsans.

## **Knowledge**

Together, our member companies cultivate a strong, unified voice on legislative, regulatory, education, and policy issues that affect the advancement of the renewable energy industry and the future of Tulsa.
