EPA- METHANE EMISSIONS REDUCTION ON TRIBAL LANDS GRANT

Tribuquent (non-profit) is spearheading an initiative to secure \$50,000,000 in funding specifically to reduce methane emissions from marginal conventional wells and other oil and gas assets on tribal lands in Oklahoma. This project is part of the DE-FOA-0003256 grant under the Inflation Reduction Act (IRA) – Methane Emissions Reduction Program. We are seeking support and collaboration from tribal nations, industry partners, and universities.

www.tribuquent.org

VIRTUAL WORKSHOPS:

Reduce Methane Emissions:
Implement cutting-edge technologies

Empower Tribal Communities:
Provide training and resources to tribal members for environmental monitoring

Promote Sustainability: Ensure long-term environmental and health benefits for tribal communities

Virtual Workshop Dates:

1. 7/15/24
2. 7/30/24

2 PM CT

GUEST SPEAKER:

Catalin Teodoriu, PhD. OU,
Professor, Mewborne Chair
in Petroleum Engineering

Today's Agenda

11:30 Welcome, introductions, and announcements (TRBA)

12:00 Conversation with the experts on Solar

Who are you?

Who are you working with right now?

What are you working on that is exciting right now?

What's the biggest challenge you are facing right now?

Who in this room do you want to talk with after the panel?

1:00 Project-to-project collaboration with industry colleagues

POWERING TULSA'S FUTURE THROUGH RENEWABLE ENERGY LEADERSHIP

Become Part of a Dynamic Alliance of Businesses Building Networks, Projects, and Community in the Energy Hub of Tulsa, Oklahoma.

[Learn More](#)

TULSA RENEWABLE BUSINESS ALLIANCE

Our members are not merely conducting business in **Tulsa**. They embody the diverse and vibrant culture that makes the city exceptional, and they engage in local initiatives to enhance the fabric of the community.

We're building a robust alliance that serves as the **Renewable** energy sector's cornerstone. Our diverse membership includes battery tech, hydrogen, solar, wind, geothermal, and utility companies, as well as the network of education, legal, HR, and other service organizations that support them.

We amplify our members' voices in news, policy, and innovation, and serve as a reliable source of **Business** information for local governance and educational institutions. Our members are industry thought leaders.

The strength of our **Alliance** is fueled by programs of interest to our member companies, such as energy advocacy and workforce development. We convene to share ideas, collaborate, and create public awareness of the economic impact the renewable energy sector brings to Tulsa.

Our Values

Collaboration

At the Tulsa Renewable Business Alliance, our first goal is to come together with renewable energy companies and the services that support this growing economy in the Tulsa area to enable collaboration, provide mutual benefit to our members, and protect the integrity of the renewable energy industry.

Community

When we come together as an alliance, we create a venue for enhancing public awareness and understanding of the renewable energy industry, while encouraging workforce development and telling the stories of how our companies and projects positively impact the lives of Tulsans.

Knowledge

Together, our member companies cultivate a strong, unified voice on legislative, regulatory, education, and policy issues that affect the advancement of the renewable energy industry and the future of Tulsa.
