Time for Solar

The federal government has allocated \$369B of incentives that enable mainstream American businesses to be part of an energy transition. Now is the time to access them.

EightTwenty is focused on educating and executing projects for commercial businesses to hedge against rising energy costs, meet sustainability objectives and maximize local opportunities as we invest in our energy future.

How solar impacts your utility bill

Generate

Things to Be Aware Of

Demand Charge, TOU, Rate Structures, Utility Rates, Individual Plans, System Sizing

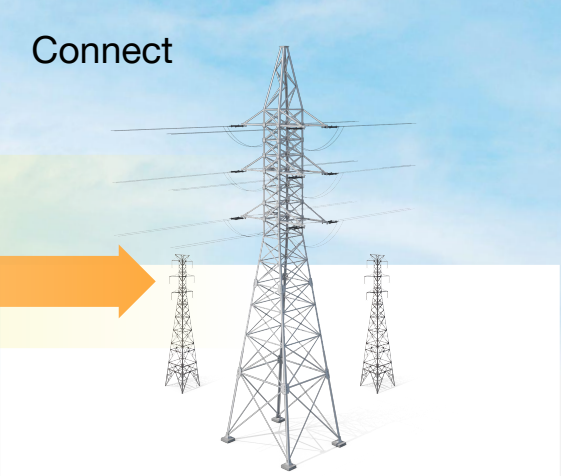

Usage Charge (kWh)

Consumption charge for the amount of energy a building uses over a given period of time

NET METERING (1:1)

Sell: \$0.12/kWh → ← Buy: \$0.12/kWh

Connect

Utility Grid

Supplements your business' power supply when solar panels are producing less electricity (i.e at night).

Battery Storage

EV Charging Stations

Solar Carports & Structures
