| 1:00 | Closing remarks and networking |

Our Values

Collaboration

At the Tulsa Renewable Business Alliance, our first goal is to come together with renewable energy companies and the services that support this growing economy in the Tulsa area to enable collaboration, provide mutual benefit to our members, and protect the integrity of the renewable energy industry.

Community

When we come together as an alliance, we create a venue for enhancing public awareness and understanding of the renewable energy industry, while encouraging workforce development and telling the stories of how our companies and projects positively impact the lives of Tulsans.

Knowledge

Together, our member companies cultivate a strong, unified voice on legislative, regulatory, education, and policy issues that affect the advancement of the renewable energy industry and the future of Tulsa.

WHO WE ARE

- **40 member organizations** advancing Tulsa's renewable energy economy
- A **diverse alliance** across wind, solar, battery storage, hydrogen, geothermal, utilities, and supporting services
- We convene to **connect expertise, strengthen collaboration, and elevate the sector's impact**
